

## Directions to Change Adobe Flash Player Global Security Settings to Allow the Mitochondrial Ebook to Work

In order to use the 3D buttons for the Complex I, III, IV and ATP Synthase molecular structures on the right of the screen, you will need to go to the following site, which actually allows you to reset your computer's security for playing FLASH.

You are going to allow the internet to talk to all the ebook files and folders you were given.

Store all the ebook files and folders in a single folder on your computer and note the location.

The use internet explorer to access the following URL:

[http://www.macromedia.com/support/documentation/en/flashplayer/help/settings\\_manager04.html](http://www.macromedia.com/support/documentation/en/flashplayer/help/settings_manager04.html)

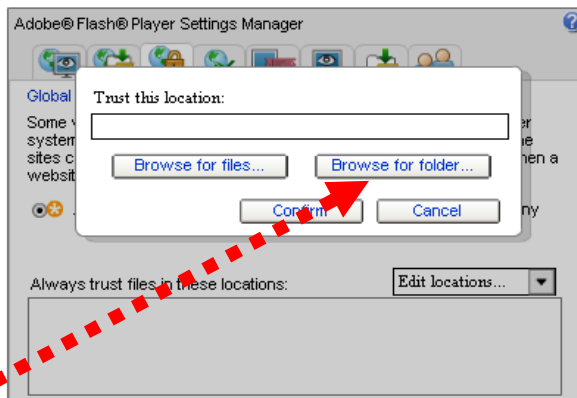

When you access it, you will see the Global Securities panel.

The screenshot displays the Adobe Flash Player Settings Manager interface. On the left, there is a 'Settings Manager' sidebar with various panels listed. The main content area is titled 'Global Security Settings panel'. It includes a section for 'Global Security Settings' with three radio button options: 'Always ask' (selected), 'Always allow', and 'Always deny'. Below this is a section for 'Always trust files in these locations:' with an 'Edit locations...' pull-down menu. A red dashed arrow points from the 'Edit locations...' menu down to the text below. The text below the screenshot reads: 'Note: The Settings Manager that you see above is not an image; it is the actual Settings Manager itself. Click the tabs to see different panels, and click the options in the panels to change your Adobe Flash Player settings. If you are a designer or developer creating applications for Flash Player, see Global security settings for content creators instead. Use the Global Security Settings panel to specify if SWF or FLV content that

Go to the pull-down window: **Edit locations**. In the pull down window,

select [Add location](#) and the following window will appear:

### Global Security Settings panel

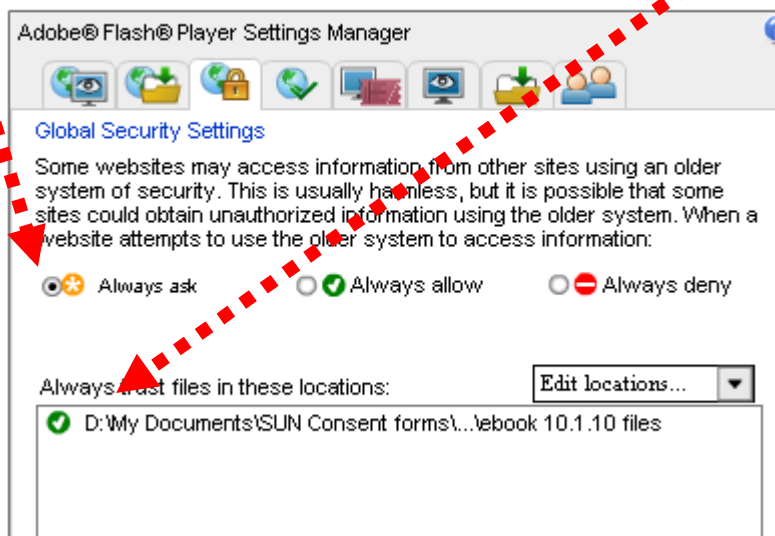

Select **Browse for folder**

Then find your folder of all the folders and files related to the mitochondrial ebook by using the “plus” button next to the folders as you go down through folders to this one.

Once you select that folder and say “OK”, the location of that folder will appear in the window as below. Choose “Always ask.” This is safest for your computer.

### Global Security Settings panel

Now you will be able to run the 3D animation buttons in the mitochondrion ebook.
